

3 Carrier Groups

plus:

USS New York

Please use your mouse, down key,
space bar or enter key to advance.

**Those of you who were in the service
or like boats, ships and planes will
appreciate this.**

3 carriers and the new fighter jet.

The specs are awesome.

Talk about whip lash.

The plane in these pictures is still officially the 'Air Vehicle Number 1', a prototype, on board the USS George Washington

CVN-73 for catapult fit checks. Not exactly still Top Secret but certainly not yet made public.

It will be known as the F/A-37. Although specs are classified, it is believed to be Mach 3.5 (top speed in the Mach 4 range) super-cruise stealth fighter/bomber/interceptor with approximately a 4,000nm range. Awesome!

*Check out the Navy test pilot in
the cockpit of the F/A-37...*

LT Kara Wade.

For the first time in over 20 some odd years, three carrier strike groups got together in formation for a great photo op.

From top to bottom are the aircraft carriers, ABRAHAM LINCOLN, KITTY HAWK and RONALD REAGAN.

*We even had Air Force planes fly-over,
with a B-2 Stealth Bomber. The only
warships not seen in the photos are the 4
nuclear powered submarines standing
guard*

AND NOW:

GREAT NEW PHOTOS!

Here SHE is!

*Notice the twin towers on
top.*

SHE IS;

***the USS New York,
made from the
World Trade Center!***

*USS New York...
It was built with 24 tons of
scrap steel from the
World Trade Center .*

*It is the fifth in a new class of warship -
designed for missions that include special
operations against terrorists. It will carry
a crew of 360 sailors and 700 combat-ready
Marines to be delivered ashore by helicopters
and assault craft.*

Steel from the World Trade Center was melted down in a foundry in Amite , LA to cast the ship's bow section. When it was poured into the molds on Sept 9, 2003, 'those big rough steelworkers treated it with total reverence,' recalled Navy Capt. Kevin Wensing, who was there.

'It was a spiritual moment for everybody there.'

***Junior Chavers, foundry operations manager,
said that when the trade center steel first
arrived, he touched it with his hand and the
'hair on my neck stood up.'***

***'It had a big meaning to it for
all of us,' he said. 'They knocked us down.
They can't keep us down. We're going to be
back.'***

***The ship's motto?
'Never Forget'***

★ NEVER FORGET ★

***Please keep this going so
everyone can see what we
are made of in this
country.***
